

# State of Idaho January 2009 Point-in-Time Count Report

Since 2005 Idaho has conducted an annual Point-in-Time (PIT) Count of the homeless in our state. The data from this count helps determine the amount of funding awarded for Idaho's homeless programs. The following report is the result of Idaho's statewide one-night Point-in-Time Count conducted on January 28, 2009.

The Continuum of Care (CoC) application for McKinney-Vento Homeless Assistance Act funding requires CoC's to produce "statistically reliable, unduplicated counts of homeless persons in sheltered and unsheltered locations at a one-day point in time". In addition, CoC's are required to identify the extent of chronic homelessness within their boundaries by reporting the number of chronically homeless people in shelters and in the unsheltered homeless population, based on local data collected through one-day point in time counts.

For the PIT Count, CoC's are instructed to count all adults, children in households, and unaccompanied youth who meet HUD's definition of homelessness. At the time of the count a person is considered homeless only when he/she resides in one of the places described below at the time of the count:

- Unsheltered homeless person resides in a place not meant for human habitation. Included in this count are people in temporary tents or armory shelters, encampments, and warming centers.
- A sheltered homeless person resides in an emergency shelter, transitional housing or supportive housing for homeless persons who originally came for the streets or emergency shelters.

*This definition of homelessness does not include persons who may be staying with friends or relatives, in a hotel/motel, in a treatment facility or in jail. Persons in these circumstances are defined as "Precariously Housed" and are often characterized as being at imminent risk of becoming homeless.*

## Summary of Survey Results

- 1939 sheltered and unsheltered individuals and persons in households counted as homeless
- 1117 single individuals and 280 Households of two or more persons (822 persons in households)
- Of persons who identified gender, 60% male and 39% female
- Of persons who identified age, 24% are under the age of 18
- Of persons who identified Disabling Condition, 24% suffer from substance abuse and 11% from Mental Illness
- Of persons who identified , 16% are Veterans and 16% are victims of Domestic Violence
- 204 Precariously Housed individuals or households were surveyed during the unsheltered portion of the count but are not included in the final count numbers

The Point-in-Time Count consists of two methods to collect data for the night of Wednesday, January 28, 2009. The sheltered homeless data is collected from surveys filled out by the shelters and from the statewide HMIS database. The unsheltered homeless survey is administered by "street or known locations" and "service based" counts conducted in each region in the state and entered into HMIS.

<u>Region</u>	<u>Counties</u>
Region One	Benewah, Bonner, Boundary, Kootenai, Shoshone

**Statewide Results of Sheltered and Unsheltered Chronically Homeless Individuals**

A Chronically Homeless Person (as defined by HUD):

- An unaccompanied homeless individual with a disabling condition who has either been continuously homeless for a year or more OR has had at least four episodes of homelessness in the past three years

AND.

- The homeless person must have been sleeping in a place not meant for human habitation (e.g. living on the streets) and/or in emergency shelter at the time of the count.

*Note: HUD's definition of the chronically homeless does not include persons in families/households.*
